

# Record With ResQ • Submit With MedHub

Automatically **Record**

Effortlessly **Submit**

Trainees can now record work hours automatically with ResQ. Simply sign in to the ResQ app once and let it do the work. The ResQ app automatically senses arrival and departure from any hospital and records those hours - no manual input is required. After ResQ records, the hours automatically sync to the trainees Work Hours module within MedHub. Once the hours are in MedHub, trainees can easily Review, Edit and Submit through the MedHub App.

**Record with**

**View** work hours  
in real-time.

**Sync** across platforms  
directly to MedHub.

**Submit with**  
**medhub**
