# Record and Document **Automatically**

**Record with**

**Sync** directly to  
MedHub.

**View** hours &  
compliance in  
real-time.

**Submit with**  
**medhub**

## Streamline Work Hours

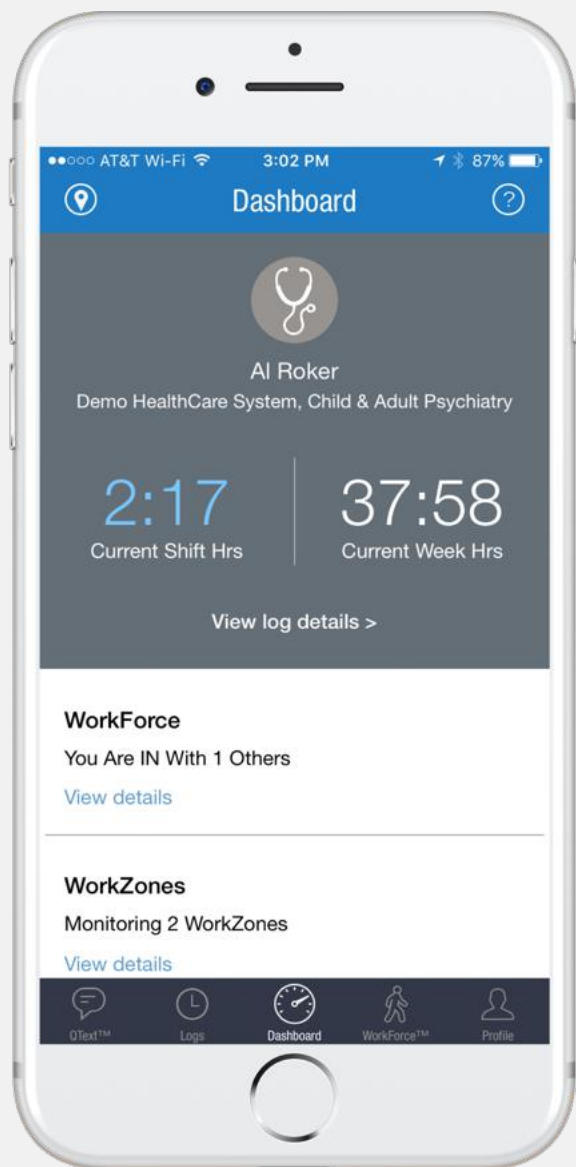

## Reduce Administrative Workload

### Residents

- ✓ Focus on Learning Medicine
- ✓ Accuracy of Reported Hours
- ✓ Eliminate Retrospective Recall
- ✓ Uniformed Sign-on
- ✓ Spend 2 Minutes, Every 2 Weeks

### Administrators

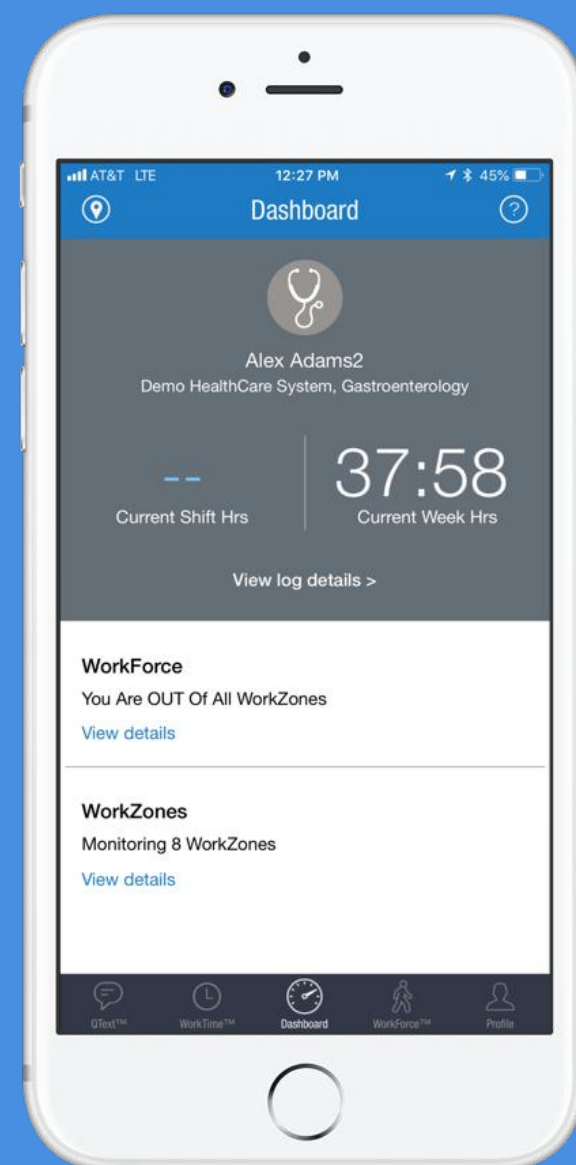

- ✓ Real-Time Compliance Information
- ✓ Increased Submission Rates
- ✓ Accurate and Honest Reporting
- ✓ Efficient - Less Reminders Needed
- ✓ Confidence With Reports Delivered to ACGME

Upon entry, ResQ records hours automatically

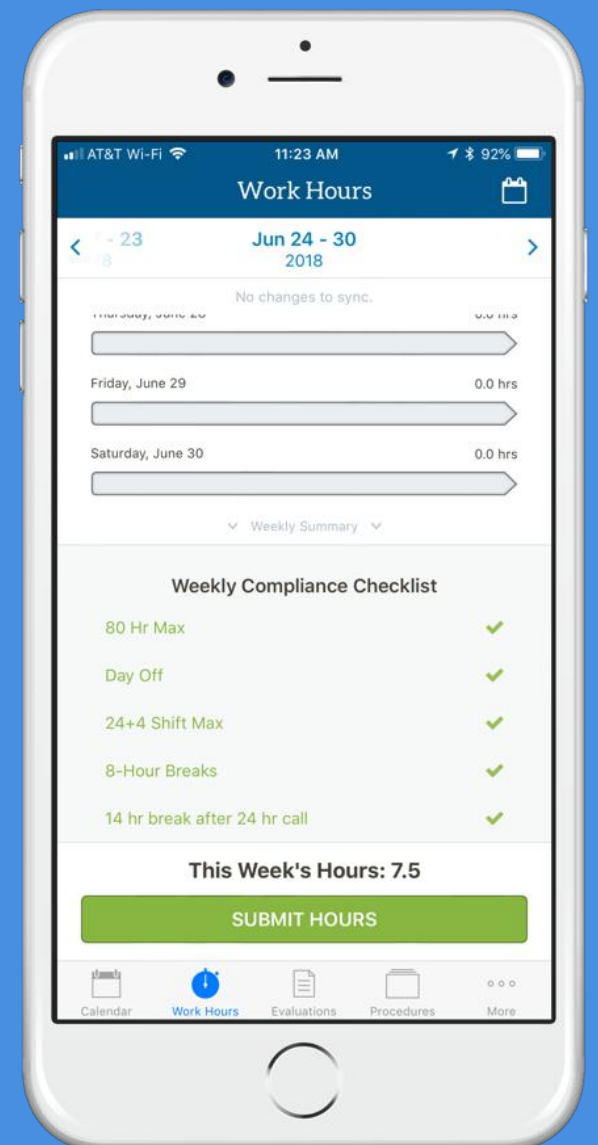

On exit, shift ends and hours stop recording

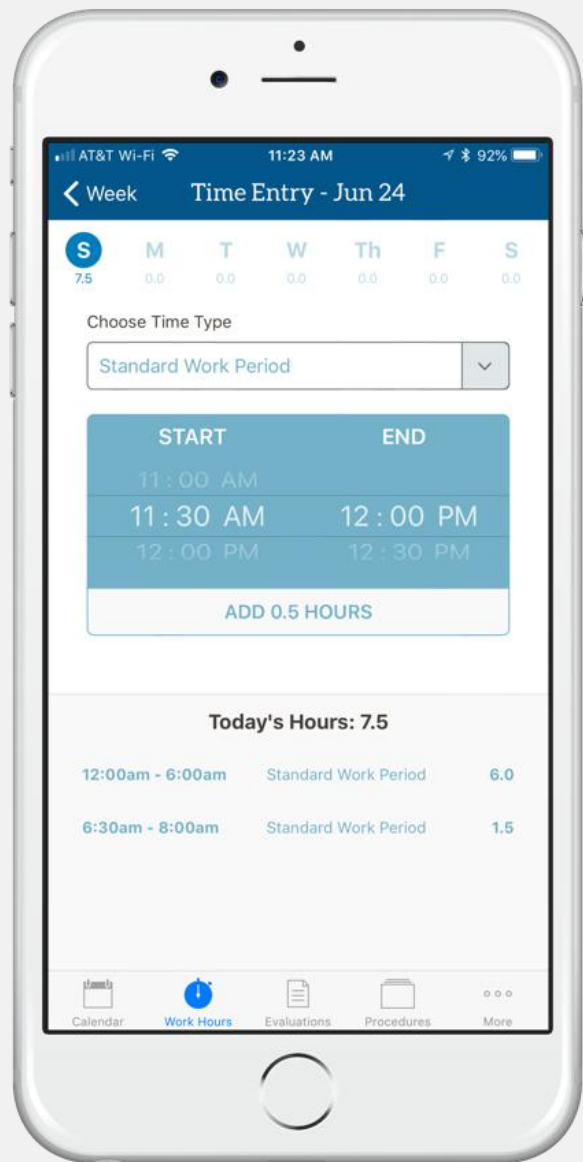

Hours sync to  
MedHub automatically

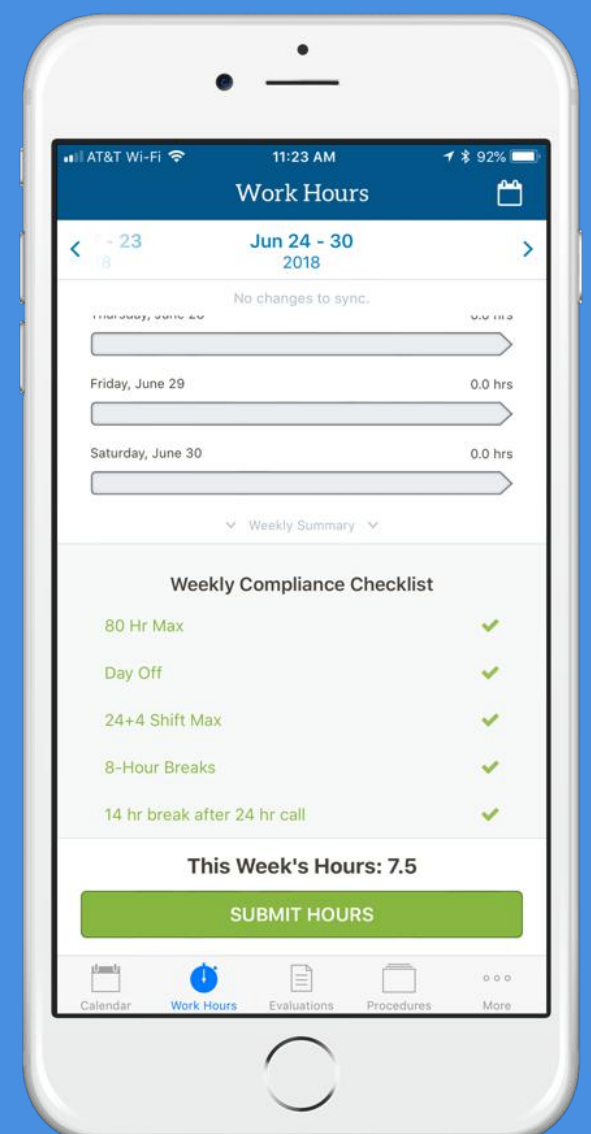

Compliance checklist in  
MedHub updates in real-time

Residents verify their hours in MedHub and edit, if needed

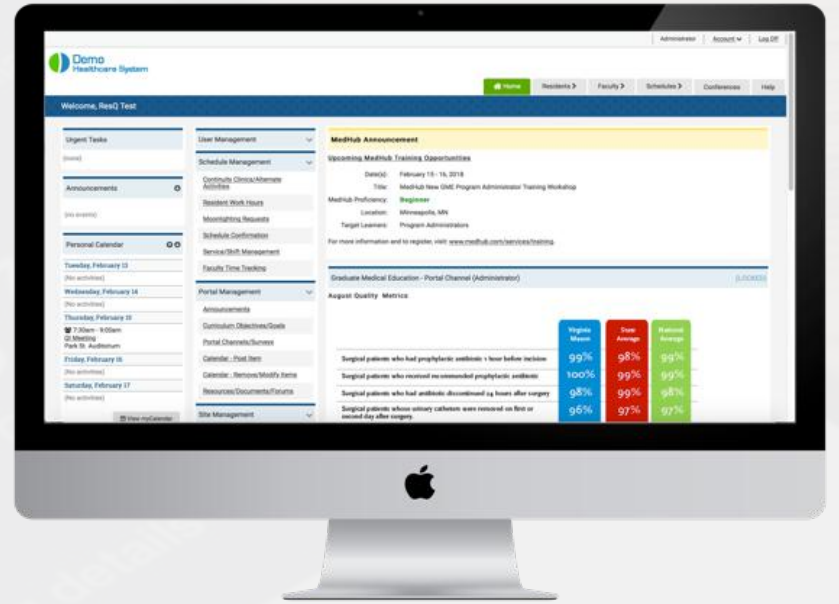

Once reviewed, residents attest hours and submit through MedHub

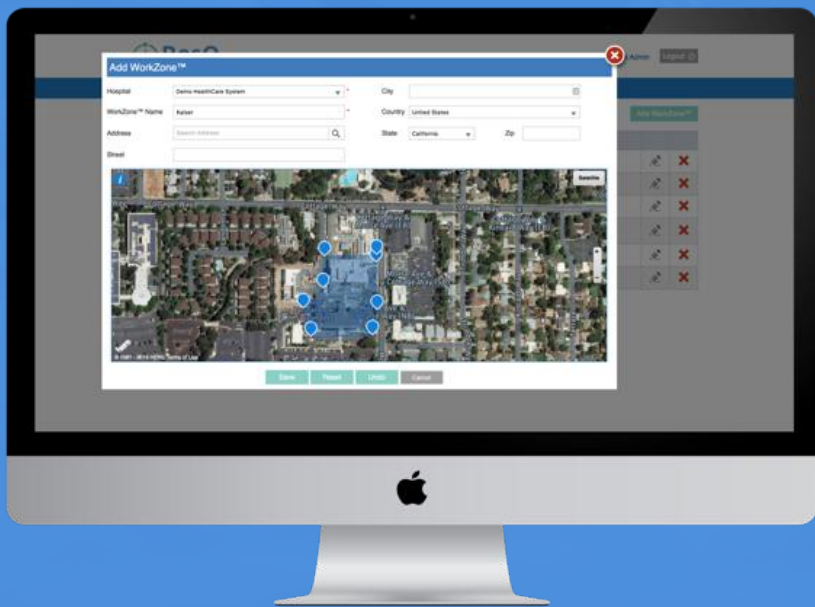

# 3 Step Implementation

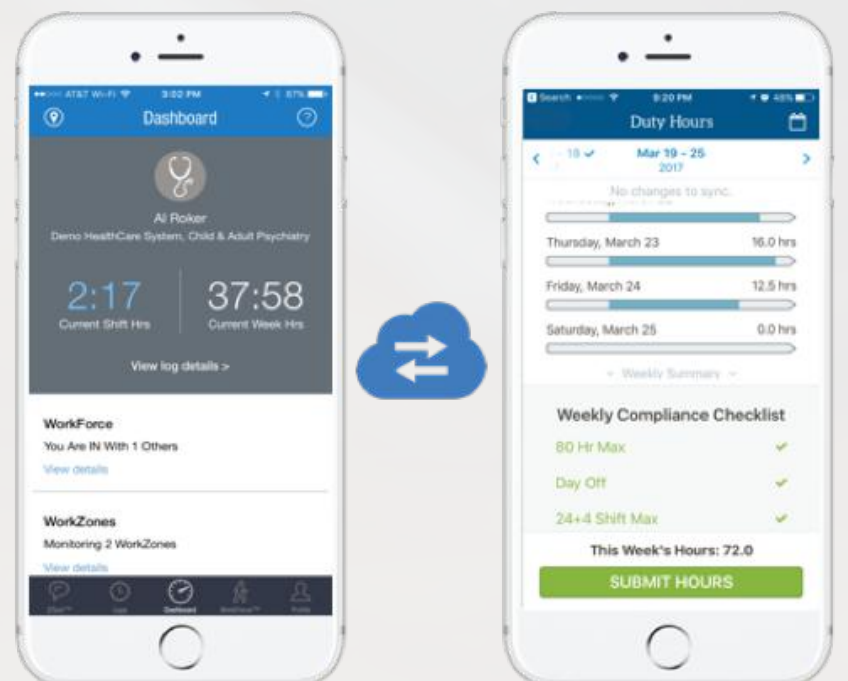

1. Use MedHub API to enable ResQ

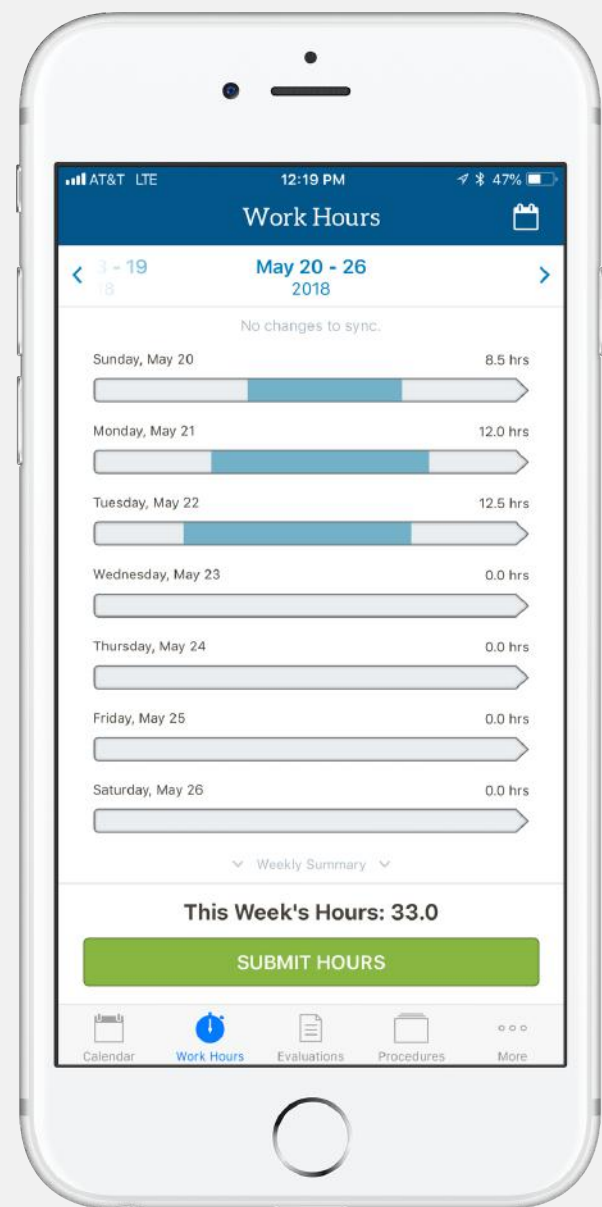

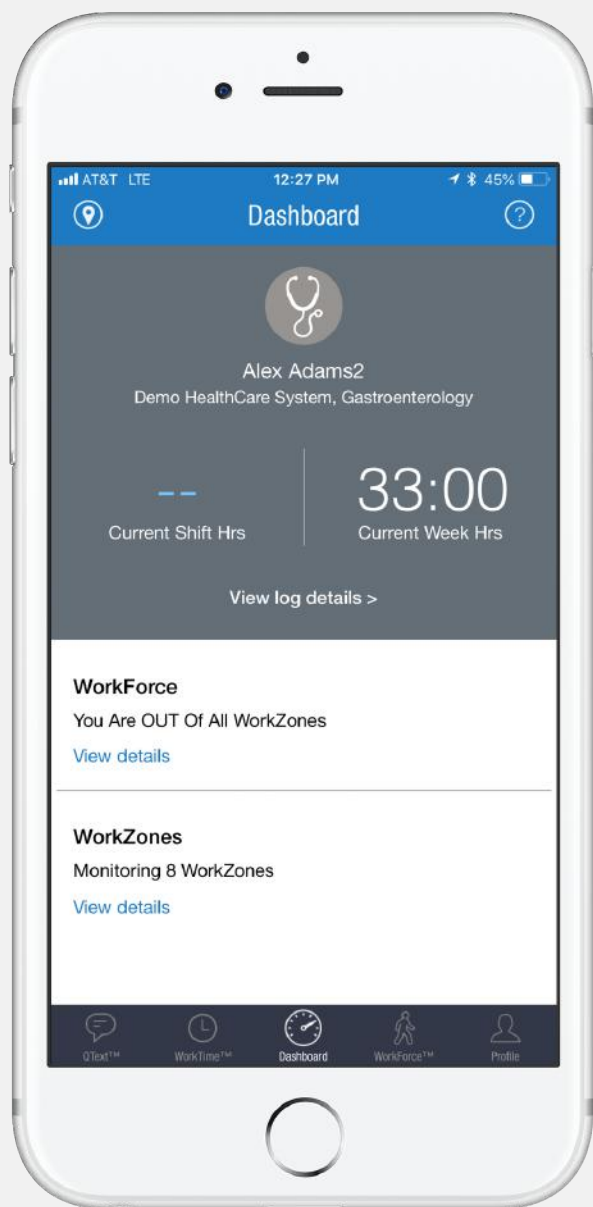

2. Create WorkZones around training sites in ResQ

3. Sign-in to record and sync hours automatically

# Two Apps, One Innovative Solution
